Viopatch Brand Value Ladder & Thematic Matrix

Mapping foundational pharmaceutical rigor to life-changing emotional outcomes across three strategic benefit pillars

Standardized logo across communication channels

1X CLEAR SPACE

Height of logo (H) exclusion boundary on all 4 sides. No typography, icons, or container borders may intrude.

LOCKED GEOMETRY

Inviolable 3.7 : 1 aspect ratio. Agency redrawing, horizontal stretching, or vertical squashing is strictly prohibited.

STATUTORY TRADEMARK (®)

Registered glyph locked at cap-height beside 'H'. Mandatory across all commercial packaging and digital assets.

MINIMUM REPRODUCTION

Print: 25 mm width | Digital: 120 px width.
Minimum reproduction threshold to preserve statutory legal legibility.

Use only approved logo from authorized source; agency redrawing is prohibited

Dark Background Variant

Master Vector Package (.SVG / .EPS / .AI)

Resolution-independent vector assets for commercial packaging converters, offset printers, foil stamping, and environmental signage

Light Background Variant

High-Res Raster Package (.PNG / .JPG -- 300 DPI)

300 DPI transparent RGBA masters calibrated for e-commerce marketplaces (Amazon, Flipkart), corporate web CMS, partner portals, and mobile UI

Incorrect usage of Viopatch brand

1. Do Not Distort

Never stretch or squash. The 3.7:1 aspect ratio must remain permanently locked across all media.

2. Do Not Recolor

Never alter brand hues. 'VIO' is strictly Skin (#FDCD8B) and 'PATCH' is strictly Blue (#0054A6) on light backgrounds, or White (#FFFFFF) on dark backgrounds.

3. Do Not Outline

Never stroke or outline letterforms (IBM Rule). Letterforms must always be solid vector fills.

4. Do Not Add Shadows

Never apply drop shadows, glows, bevels, or 3D extrusions (Uber Rule). Wordmark must remain crisp & flat.

5. Do Not Omit ®

Never omit or relocate statutory trademark (®). The glyph is legally mandatory at cap-height beside 'H'.

6. Do Not Rotate or Tilt

Never rotate or place the logotype on an angle or diagonal layout (Uber Rule). Always align horizontally.

7. Do Not Violate Spacing

Never crowd inside tight borders or containers (IBM Rule). Maintain the inviolable 1X clear space boundary.

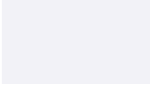

8. Do Not Use Low Contrast

Never place the blue wordmark on dark navy or busy backgrounds (Uber Rule). Use the white-text variant on dark.

Use only approved brand color palette across communication channels
